*The education of youth was always intensely interesting to Yoganandaji. In 1917, he founded Yogada Satsanga Society of India and established his first school at Ranchi (Bihar) in 1918, which has expanded now to four colleges and seventeen schools in different states in India.*

## *Joint Correspondent Message*

*Dear All,*

*I wish to congratulate the staff and students on the occasion of the nineteenth Annual Day Celebrations of Sri Sri Paramahansa Yogananda Vidyalaya being held on 27<sup>th</sup> Dec, 2019.*

*It is the Grace of the Almighty and the dedication of the staff that helped the baby Institution to grow steadily and reach adulthood. Now is the opportunity to utilize the past experiences and maturity to grow further by leaps and bounds and make a name for itself in the region.*

*In the earlier years, I visited the school for short periods and I always wanted to spend more time and contribute in its growth. I am thankful to God and our Guru Paramahansa Yogananda, that since last two years, I am able to get time to spend in the Institute and help in my humble way to develop the infrastructure.*

*I am fortunate that during this period I met certain older batch students and shared their experiences in the school. Happy to learn that they are doing extremely well in their further pursuits academic or otherwise. All of them without exception have expressed their gratitude to the Institution and teachers for moulding their character and helping in the career development.*

*They mentioned about their happy and memorable days spent in the school.*

*I can very well advise all the citizens and their wards living in this region, to avail every opportunity and derive the benefits from this great institution.*

*Greetings to one and all. May the Institution flourish and celebrate such Annual Days for many more years.*

## *Chairman Message*

### *Greed Vs Nature*

*There has been a running friction between Rajasik and Satvik qualities of people. Rajasik lead the race for economic and military dominance while Satvik believe in preserving the nature by minimum consumption. A balance is the need of the hour, respecting the nature by preserving the habitat, climate and restricting the pollution. All these are necessary for the present and future of civilization.*

*Today recycling is the mantra for sustenance of environment and nature. Renewable energy from Sun, Wind and Water can not only save the earth but provide energy security, mobility and necessary comforts too.*

*The philosophy of 'Vasudhaiva Kutumbakam' can reduce the friction between countries and military-race. We can fulfill our obligation to Mother Earth by adopting "Simple living and High thinking" and nurturing love in our hearts and goodwill to all.*

*(Let all be happy, let all be healthy)*

## *From the Principal's Desk ...*

*As I walk down the hallways of the school every day, I can hear the chatter of eager minds, the shouts of excitement from the victorious athletes, the thump of dancer's feet & the sound of melodious voices harmonizing. The perpetual energy, movement & enthusiasm permeate the atmosphere at SSPYV. We are school with a difference. We value individualism, creativity and innovation and strive to nurture them in our students.*

*The School's genuine concern ensures student's emotional growth along with intellectual excellence. This empowers them to develop their self-esteem, self-awareness and self-confidence. Sharing ideas, analyzing situations and expressing them confidently are essential skills which are honed here, through Experiential Learning.*

*While studying at the school, the students will be groomed to become confident, articulate and enlightened young citizens, ready to step into global society with dignity, honour and integrity.*

*We believe in giving our students strong values along with a set of wings which may carry them far and wide. In other words, our students are equipped to face the challenges of the rapidly changing world.*

*We rear students who are creatively curious and strive to experiment & innovate new things on both academic and non-academic fronts. Our pedagogy is child – centric with emphasis on inquiry and project-based learning. We treasure dynamism and deem that one should be well prepared to adapt to the global scenario and work on his/her learning accordingly. This is perhaps why we have introduced a globally advanced curriculum.*

*Besides rigorous scholastic programmes, we seek to develop and nurture the different facets of a child. From academic to dance, theatre, music and a variety of sports, we focus on developing both, the mental and the physical abilities of a student. The activities provide holistic grooming to the student wherein the child is able to explore his true potential. Besides the usual procedural teaching, we persistently upgrade and update our teaching tools and techniques. From interactive teaching methods to a healthy teacher student relationship, we work around making studies as effortless as possible.*

*Today's India is an empowered, enlightened and enterprising nation. We wish to make it even more powerful with conscientious, smart and confident citizens who would make us proud of their multifaceted growth.*

*Thanks for your time*
